

MOODY'S

RATINGS

Rating Action: Moody's Ratings assigns definitive Aaa to MMB SCF – Mortgage Covered Bonds

12 Dec 2024

Paris, December 12, 2024 -- Moody's Ratings (Moody's) has today assigned definitive Aaa long-term ratings to the mortgage covered bonds issued by MMB SCF (the "issuer", unrated), which are governed by the French legal framework for Sociétés de Crédit Foncier (SCF) (the SCF law).

RATINGS RATIONALE

A covered bond benefits from (1) the issuer's promise to pay interest and principal on the bonds; and (2) following a CB anchor event, the economic benefit of a collateral pool (the cover pool). The ratings therefore reflect the following factors:

(1) The credit strength of My Money Bank S.A. ("MMB") (at the request of the sponsor bank, the CR assessment is not published.) and a CB anchor of CR assessment plus 1 notch;

(2) Following a CB anchor event, the value of the cover pool. The stressed level of losses on the cover pool assets following a CB anchor event (cover pool losses) for this transaction is 17.5%.

We considered the following factors in our analysis of the cover pool's value:

a) The credit quality of the assets backing the covered bonds. The mortgage covered bonds are backed by French residential mortgage loans. The collateral score for the cover pool is 4.0%;

b) The legal framework and structure of the programme. Notable aspects of the French SCF law include:

(i) the law provides for an independent cover pool monitor (contrôleur spécifique) to make regular checks on the cover pool and covered bonds programme. In addition, the issuer and the cover pool monitor report to the regulator, the Autorité de Contrôle Prudentiel et de Résolution (ACPR);

(ii) upon issuer insolvency, covered bonds are not subject to acceleration, reducing the risk of early liquidation of the cover pool;

(iii) the legal framework includes a requirement that issuers maintain 180 days liquidity coverage for bonds issued after July 2022, as well as a provision for issuers to repo up to 10% of their covered bonds with the Banque de France; and

(iv) the issuer must ensure that the difference between the average life of the cover pool (to those assets required to meet the 105% legal minimum over-collateralisation (OC)) and that of the covered bonds does not exceed 18 months.

c) The exposure to market risk, which is 14.8% for this cover pool;

d) The over-collateralisation (OC) in the cover pool is 21.7%, of which the issuer provides 5% on a "committed" basis (see KEY RATING ASSUMPTIONS/FACTORS below).

The TPI assigned to this transaction is Probable-High. Our TPI framework does not constrain the ratings.

As of September 2024, the total value of the assets included in the cover pool is approximately EUR 2.92 billion, comprising 27,111 residential mortgage loans and substitute assets. The residential mortgage loans have a weighted-average (WA) seasoning of 54 months and a WA loan-to-value (LTV) ratio of 52.7%.

At the request of MMB, the CR assessment is not published.

KEY RATING ASSUMPTIONS/FACTORS

We determine covered bonds ratings using a two-step process: an expected loss analysis and a TPI framework analysis.

EXPECTED LOSS: we use our Covered Bond Model (COBOL) to determine a rating based on the expected loss on the bond. COBOL determines expected loss as (1) a function of the probability that the issuer will cease making payments under the covered bonds (such cessation, a CB anchor event); and (2) the estimated losses that will accrue to covered bondholders should a CB anchor event occur. We express the probability of a CB anchor event as a point on our alpha-numeric rating scale (i.e. the CB anchor), which is typically one notch higher than the sponsor bank's CR assessment.

The CB anchor for this programme is the CR assessment of MMB plus 1 notch.

The cover pool losses for this programme are 17.5%. This is an estimate of the losses we currently model following a CB anchor event. We split cover pool losses between market risk of 14.8% and collateral risk of 2.7%. Market risk measures losses stemming from refinancing risk and risks related to interest-rate and currency

mismatches (these losses may also include certain legal risks). Collateral risk measures losses resulting directly from cover pool assets' credit quality. We derive collateral risk from the collateral score, which for this programme is currently 4.0%.

The over-collateralisation in the cover pool is 21.7%, of which the issuer provides 5% on a "committed" basis. Under our COBOL model, the minimum OC consistent with the Aaa rating is 15.5%, of which 0% needs to be in "committed" form to be given full value. These numbers show that we are relying on "uncommitted" OC in our expected loss analysis.

The cover pool losses are an estimate of the losses we currently model following a CB anchor event. We split cover pool losses between market risk and collateral risk. Market risk measures losses stemming from refinancing risk and risks related to interest-rate and currency mismatches (these losses may also include certain legal risks). Collateral risk is derived from the collateral score, which measures losses resulting directly from the cover pool assets' credit quality.

For further details on cover pool losses, collateral risk, market risk, collateral score and TPI Leeway across covered bonds programmes rated by us, please refer to "Covered Bonds Sector Update", published quarterly.

TPI FRAMEWORK: we assign a "timely payment indicator" (TPI), which is our assessment of the likelihood of timely payment of interest and principal to covered bondholders following a CB anchor event. TPIs are assessed as Very High, High, Probable-High, Probable, Improbable or Very Improbable. The TPI framework limits the covered bonds rating to a certain number of notches above the CB anchor.

RATING METHODOLOGY

The principal methodology used in these ratings was "Moody's Approach to Rating Covered Bonds" published in October 2024 and available at <https://ratings.moodys.com/rmc-documents/429879>. Alternatively, please see the Rating Methodologies page on <https://ratings.moodys.com> for a copy of this methodology.

Factors that would lead to an upgrade or downgrade of the ratings:

The CB anchor is the main determinant of a covered bonds programme's rating robustness. A change in the level of the CB anchor could lead to an upgrade or downgrade of the covered bonds. The TPI Leeway measures the number of notches by which we might lower the CB anchor before we downgrade the covered bonds because of TPI framework constraints.

The TPI Leeway for this programme is unpublished.

A multiple-notch downgrade of the covered bonds might occur in certain circumstances, such as (1) a country ceiling or sovereign downgrade capping a

covered bonds rating or negatively affecting the CB anchor and the TPI; (2) a multiple-notch downgrade of the CB anchor; or (3) a material reduction of the value of the cover pool.

REGULATORY DISCLOSURES

For further specification of Moody's key rating assumptions and sensitivity analysis, see the sections Methodology Assumptions and Sensitivity to Assumptions in the disclosure form. Moody's Rating Symbols and Definitions can be found on <https://ratings.moodys.com/rating-definitions>.

For any affected securities or rated entities receiving direct credit support/credit substitution from another entity or entities subject to a credit rating action (the supporting entity), and whose ratings may change as a result of a credit rating action as to the supporting entity, the associated regulatory disclosures will relate to the supporting entity. Exceptions to this approach may be applicable in certain jurisdictions.

For ratings issued on a program, series, category/class of debt or security, certain regulatory disclosures applicable to each rating of a subsequently issued bond or note of the same series, category/class of debt, or security, or pursuant to a program for which the ratings are derived exclusively from existing ratings, in accordance with Moody's rating practices, can be found in the most recent Credit Rating Announcement related to the same class of Credit Rating.

For provisional ratings, the Credit Rating Announcement provides certain regulatory disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating.

Moody's does not always publish a separate Credit Rating Announcement for each Credit Rating assigned in the Anticipated Ratings Process or Subsequent Ratings Process.

These ratings are solicited. Please refer to Moody's Policy for Designating and Assigning Unsolicited Credit Ratings available on its website <https://ratings.moodys.com>.

Regulatory disclosures contained in this press release apply to the credit rating and, if applicable, the related rating outlook or rating review.

The Global Scale Credit Rating(s) discussed in this Credit Rating Announcement was(were) issued by one of Moody's affiliates outside the UK and is(are) endorsed for use in the UK in accordance with the UK CRA Regulation.

Please see <https://ratings.moodys.com> for any updates on changes to the lead rating

analyst and to the Moody's legal entity that has issued the rating.

Please see the issuer/deal page on <https://ratings.moodys.com> for additional regulatory disclosures for each credit rating.

All information contained herein is obtained by MOODY'S from sources believed by it to be accurate and reliable. Because of the possibility of human or mechanical error as well as other factors, however, all information contained herein is provided "AS IS" without warranty of any kind. MOODY'S adopts all necessary measures so that the information it uses in assigning a credit rating is of sufficient quality and from sources MOODY'S considers to be reliable including, when appropriate, independent third-party sources. However, MOODY'S is not an auditor and cannot in every instance

independently verify or validate information received in the credit rating process or in preparing its Publications.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability to any person or entity for any indirect, special, consequential, or incidental losses or damages whatsoever arising from or in connection with the information contained herein or the use of or inability to use any such information, even if MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers is advised in advance of the possibility of such losses or damages, including but not limited to: (a) any loss of present or prospective profits or (b) any loss or damage arising where the relevant financial instrument is not the subject of a particular credit rating assigned by MOODY'S.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability for any direct or compensatory losses or damages caused to any person or entity, including but not limited to by any negligence (but excluding fraud, willful misconduct or any other type of liability that, for the avoidance of doubt, by law cannot be excluded) on the part of, or any contingency within or beyond the control of, MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers, arising from or in connection with the information contained herein or the use of or inability to use any such information.

NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE ACCURACY, TIMELINESS, COMPLETENESS, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OF ANY CREDIT RATING, ASSESSMENT, OTHER OPINION OR INFORMATION IS GIVEN OR MADE BY MOODY'S IN ANY FORM OR MANNER WHATSOEVER.

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any credit rating, agreed to pay to Moody's Investors Service, Inc. for credit ratings opinions and services rendered by it fees ranging from \$1,000 to approximately \$5,000,000. MCO and Moody's Investors Service also maintain policies and procedures to address the independence of Moody's Investors Service credit ratings and credit rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold credit ratings from Moody's Investors Service, Inc. and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moodys.com under the heading "Investor Relations — Corporate Governance — Director and Shareholder Affiliation Policy."

Additional terms for Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail investors.

Additional terms for Japan only: Moody's Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of Moody's Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any credit rating, agreed to pay to MJKK or MSFJ (as applicable) for credit ratings opinions and services rendered by it fees ranging from JPY100,000 to approximately JPY550,000,000.

MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.
